INSTRUCTION BOOKLET

WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

WARNING - Seizures

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions

Altered vision

Eye or muscle twitching

Involuntary movements

Loss of awareness

Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Race across the dunes and go from checkpoint to checkpoint to be the first one across the finish line. But be careful. You have more than just the perils of the desert to look out for! Dangerous land mines are all over this ex-military testing ground. Hit one, and you'll lose precious time.

THE STARTING LINE

When the *Racing Screen* appears, all racers will be positioned at the starting line. Your ATV will appear just below the countdown timer. When the timer reaches zero, the race will begin.

In order to successfully complete a race, you must drive through every checkpoint in order, while avoiding obstacles and others racers.

The following information is displayed on the screen:

- **Elapsed Timer:** this number indicates the amount of time you have been racing on the current course.
- **Directional Arrow:** indicates the direction you must drive to get to the next checkpoint.
- **Position Indicator:** displays your position in the race. This number will change as your position in the race changes.
- **Lap Indicator:** indicates the current lap, as well as the number of laps in the current race.

While racing, avoid obstacles such as bushes, water, and cacti, as well as other ATVs. Bumping into these will cost you precious time, or maybe even the race itself! Also, avoid **Land Mines**, as these will cause you to lose the most amount of time.

THE FINISH LINE

In ***Challenge Mode***, at the successful completion of a race, your racing elapsed time will be displayed. If you came in first place, you will move on to the next track. If you did not place first, you will have two more chances to compete on the same track.

TRACK ITEMS

While racing, you will find various objects scattered on the track to either help or hinder your progress. These include:

Gas Can

Colliding with this object will cause your ATV to have a burst of speed for a few moments.

Land Mine

Avoid this half-buried unexploded bomb at all costs. Colliding with it will cause you to lose valuable time.

GAME PLAY TIPS

- Follow the green arrow to locate checkpoints
- Don't stay on the track, go off-roading to reach checkpoints
- Use nitro pick-ups to stay ahead of the competition
- Avoid land mines and obstacles
- Hold back on the directional pad to perform jumps over hills
